

MegaMeeting.co.uk

Video & Web Conferencing for ALL of us

Times are changing. We currently live in a generation of now; the way businesses are run today is nothing like the way they were run 20 years ago. Advancements in technology have allowed businesses to communicate with their prospects, clients and employees in a manner previous generations only dreamed about. It is because of this advancement in technology, as well as the rising cost of transportation and travel that the necessity for online collaboration and communication has become a crucial tool for any business that wishes to keep costs down, yet remain 100% connected with it's prospects, clients and employees.

At MegaMeeting.co.uk we have uniquely identified what is needed to allow more people to participate in web meetings, as well as how web meetings can be made simple. This is why our 100% Browser Based Video & Web Conferencing solution is the No.1 web conferencing choice for ALL businesses and organisations. MegaMeeting removes the many obstacles organising and planning online meetings present. Our sophisticated and high end services allow businesses to unify and bring together prospects, clients and employees, no matter where they are located throughout the world.

What makes MegaMeeting.co.uk Unique?

- **100% Browser Based** - All MegaMeeting products allow attendees to meet and share information over the Internet without having to download or install any software. In order for attendees to participate in a web meeting, all they need is an Internet browser and a broadband internet connection. This means more attendees can get into MegaMeeting web meetings than other video and web conferencing solutions.
- **Live Online Video Feeds** - MegaMeeting supports higher quality and more video options than other Internet based video and web conferencing solutions. In addition MegaMeeting supports an industry leading 16 simultaneous live video feeds, meaning up to 16 separate individuals (or locations) can be seen at the same time by an unlimited number of attendees in the same web meeting room.
- **Operating System Agnostic** - Anyone that is using a Windows, Mac, or Linux based computer or device may participate in a MegaMeeting web meeting
- **Unlimited Video & Web Conferencing for One Low Monthly Fee** - With plans starting as low as £30 per month, MegaMeeting offers an economical solution that ALL businesses can afford. And with the option of "month to month", pay as you go service, you don't have to worry about having to commit to any long term contract.
- **Built-in VoIP** - MegaMeeting allows attendees to communicate with built-in clear Internet based VoIP audio - at NO additional charge. All that is required are standard microphones and speakers.
- **Teleconferencing Support** - For those clients that wish to use standard telephones and mobiles with their web meetings, MegaMeeting supports multiple teleconferencing options; both paid and free options are built into all MegaMeeting web meetings.
- **Computer Sharing/Tech Help** - Remotely control the computer of an attendee - or allow the attendee to control your computer, aiding in training and help desk environments.
- **MegaMeeting Q** - Have your prospects and clients directed to LIVE video/web conferencing rooms, where your sales or tech staff will be waiting to assist them. This results in increased sales and customer service.
- **Multifaceted Online Collaboration Tools and Features** -
 - ShowMyDesktop - Participants can present information, be it a PowerPoint Presentation, an Excel Spreadsheet, a Word document, websites via their browser. or anything else a participant wishes to show other attendees in the web meeting.
 - Online Polls and Surveys - Gather real time data with spot polls and surveys.
 - Whiteboard - Allows attendees to annotate their ideas on an online whiteboard
 - Showcase Videos - Transfer videos to Flash Format and showcase them during web meetings
 - Outlook and Entourage Compatible - Use Outlook or Entourage accounts to create, join and send reminders about meetings.
 - Highlighter - Annotate and emphasise important points in documents with the highlighter tool.
 - Chat - Participants can send and receive text chat, both publicly with all meeting attendees, or privately with selected meeting attendees.
